

# EV CHARGING APP

New Energy Asia Pacific Co., Ltd.

## INTRODUCTION

Own EV charging station finder app similar to popular platforms like EVgo, PlugShare, ChargeGrid and Recharge India. It is mainly used as an online platform for our own charging products. A self-built platform that combines search and payment.

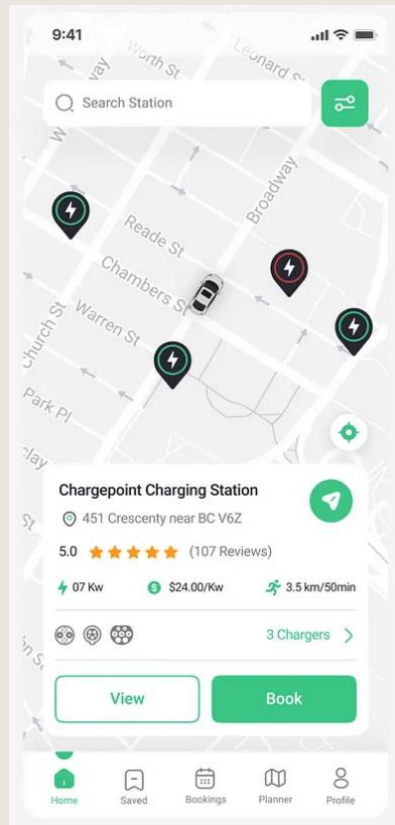

To expedite mass adoption of electric vehicles by creating a convenient, reliable, and affordable EV charging network that delivers fast charging to everyone.

- 1 ————— Geolocation & EV Filter Station Search
- 2 ————— Booking Charging Station & Trip Planner Panel
- 3 ————— Payment Facility & NE+ Wallet
- 4 ————— Actions & Rewards

## FUNCTION

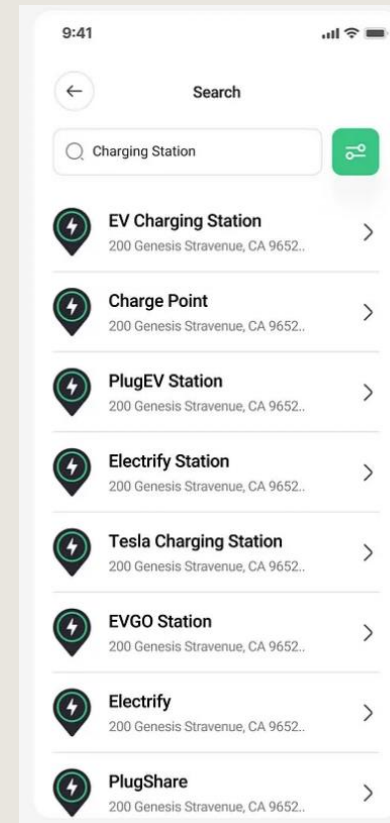

# GEOLOCATION & EV FILTER STATION SEARCH

## GEOLOCATION

Utilizing real-time location data, the app displays nearby charging stations. Users also have the option to manually input their location.

## SEARCH

EV drivers can search for charging stations based on their specific requirements, such as station category, features, availability, charging networks, and plug types.

## BOOKING

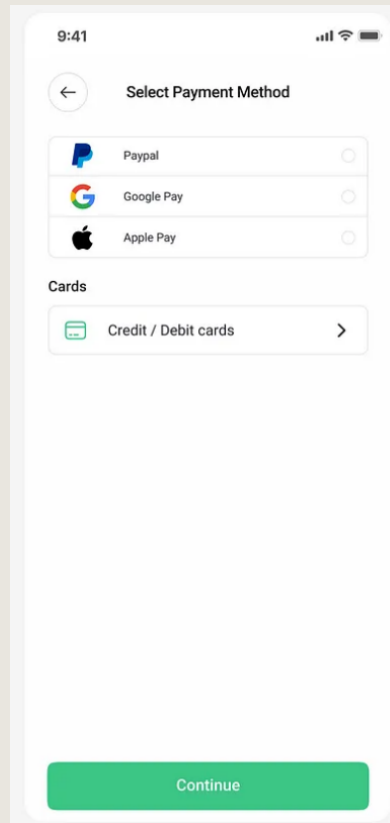

This feature enables EV drivers to conveniently reserve a charging spot in advance, ensuring they can charge their vehicles without having to wait in long queues.

## PLANNER

The trip planner feature notifies users about nearby charging stations and provides updates on their vehicle's battery level during their journey.

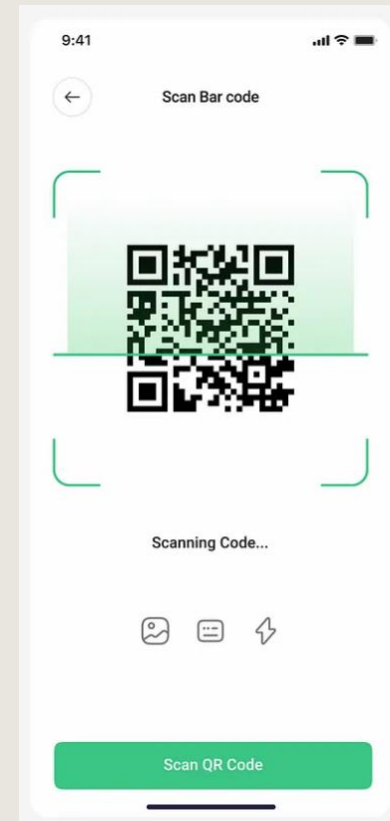

# PAYMENT FACILITY & NE+ WALLET

## PAYMENT

Users can make secure online payments within the app and easily track their charging expenses.

In addition, online non-member payment methods will also be provided, but rewards will not be included.

## WALLET

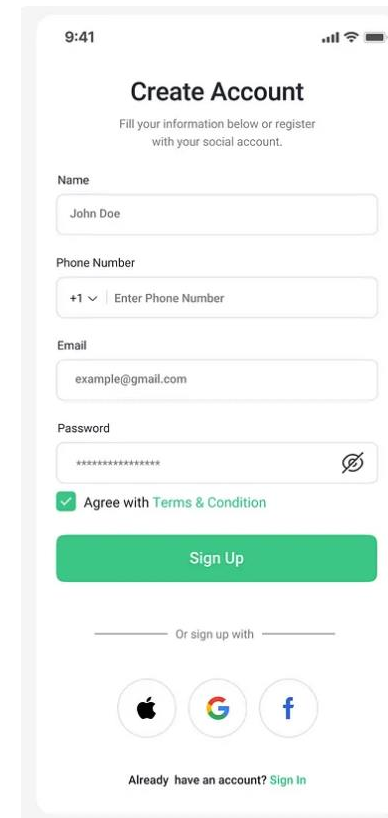

Mainly provided to company customers. The company can recharge the company's drivers on a scheduled basis to cover the cost of each charging. This saves the driver the burden of monthly charging expenses.

# ACTIONS & REWARDS

## ACTIONS

Through NE+, users can clearly know the charging location, charging amount, time and pricing.

## REWARDS

New users can easily register by providing their phone number, email address, and creating a strong password.

User can earn points every time that charge and can redeem their points for charging credit in NE+ wallet.

## ADDITIONAL FUNCTION

NE+ also an electric vehicle promotion platform. It will be linked to our New Energy Channel to regularly update vehicle information and discount plans.

THANK YOU

BONO LI
